The Boston Globe of Sept. 14 has the following concerning one of our young ladies, together with her picture and that of her horse: “Doris Layne, 13-year-old farmerette of this town, has been the subject of discussions among her neighbors since she purchased a riding horse with money earned berrying and haying during the month of August. Doris used to envy other girls in the town riding their horses and decided that she was going to have one of her own. She picked blueberries and offered them for sale. She also offered her services to a neighboring farmer and drove his rake during the haying period. She saved her money and went to Dover, where she purchased ‘Charlie,’ who is probably the fastest riding horse in Lee. Doris is now envied by other girls. She has accepted many challenges and ‘Charlie’ has been victorious in each instance. Riding is not the most serious thing that Doris does, for every day she rises early in the morning, milks the cows, looks after the garden and does chores about the farm.”
